Professional Summary

Computer Science student with hands-on experience in Python, Java, data structures and algorithms, web development. Strong problem-solving skills with experience developing practical software projects, participating in hackathons, and leading technical teams.

Technical Skills

Languages: Python, Java, C programming

Web: HTML, CSS, JavaScript, React

Database: MySQL,

Tools: Git, GitHub, VS Code, ChatGPT, Claude

Concepts: DSA, OOP, DBMS

Education

School of Management Sciences Lucknow Uttar Pradesh

| **AKTU**

Bachelor of Technology in Computer Science

Aug 2024-June2028

SGPA:8.64 (till 4th semester)

Uma Shankar Vidyapeeth, Gorakhpur, Uttar Pradesh

| **CBSE**

High school &Intermediate

2022 & 2024

Work Experience

Open Source Contributor | GSoC | OSCG | Elite Coders | 2026

- Contributed to open-source projects through Git/GitHub, issue tracking, pull requests, and documentation.
- Collaborated with contributors to implement improvements and work with production-oriented codebases.

Virtual Intern – Web Development with Java | Eduskills Academy | 2 Months

- Developed web application components using Java, HTML, CSS, and JavaScript.
- Applied OOP, debugging, testing, and Git/GitHub practices in web development projects.

Projects

Sermo Play – Regional-Language Game Library

- Built a responsive educational platform for discovering and downloading regional-language learning games with filters for language, subject, and class.
- Developed teacher-focused Quiz Creator and Printable Hub modules for generating customized quizzes.
- Implemented an offline-sync simulation with local data queuing and cloud synchronization.
- Designed and integrated database tables for Users, Games, Quizzes, and SyncQueue.

AI Community Marketplace

- Developed a platform connecting local communities with nearby products/services.
- Implemented user-focused features for discovering and interacting with local markets.
- Used modern web technologies to develop and deploy the application.

Certification

- Generative AI:** Infosys Springboard
- Python full stack development:** Eduskills Academy

Achievement

- Solved 50+ programming and problem-solving challenges on HCL GUVI, covering arrays, strings, searching, recursion, hashing, and other fundamental DSA concepts.
- Participated in hackathons and contributed to developing technology-driven solutions under time constraints.
- Developed and deployed personal software projects using Git/GitHub and modern development tools.
